

Greeting from Guatemala

Each year Earth Friendly continues to break new ground in the coffee world. This year, we are enlisting international assistance in equipping the Maya Ixil people with their own roasting facility. Once the Maya Ixil are fully trained in operating this facility, they will roast their extraordinary coffee and send it directly to you!

Earth Friendly Coffee™

Rainforest Coffee

An extraordinary story

He does not realize it,
but he is on the front line of the
environmental movement.

He works with the Rainforest as his partner.

It provides the crucial foundation for the
coffee crop he tends for a full year.

He cherishes the forest because he
needs it. His livelihood depends on him
saving the Rainforest.

We want him to save the Rainforest;
that's why we buy his coffee.

We cannot be there to tell him how
important the Rainforest is to the Earth;
but he knows how important it is to him.

We at Earth Friendly Coffee
Company, appreciate that someone is
tending the world's Rainforest. We
support that effort by selling the
Maya Ixil Coffee.

Not everyone can stand in the Rainforest as
an active partner to this Earth.

But, the small act of buying this farmer's
extraordinary coffee does exactly that.

When you partner with these
Mayan Farmers,
by purchasing Earth Friendly Coffees;
you are also on the
front line of rescuing our Earth's
environment.©
